## **Rio French Door**

REHAU are pleased to announce the launch of the Rio Flush Fit French Door. We have taken the design elements of our Rio Flush Fit Window and developed a complimentary French Door that allows you to apply its unique clean aesthetic to every element at home.

Windows. Reinvented for modern life.

 **REHAU**

# REHAU has expanded its Rio Flush Fit range to include the popular and versatile French Door.

After the success of our popular Rio Flush Fit Window, we have taken these design elements and developed a complimentary French Door that allows you to apply this product lines unique clean aesthetic to every element in the home. Having both of these matching window and door fittings with slimmer sightlines and discreet hinge hardware allows for an increasingly consistent home design.

To achieve your perfect interior design finish the new Rio French Door is available in a range of colours thanks to REHAU's collection of laminate finishes. In line with REHAU design principles, the Rio French Door has excellent quality benefits, keeping homes warm and being certified to the PAS 24 security standard, having been tested at its maximum size of 1900mm x 2250mm.

#### Advantages and benefits

- Fully welded outward opening door solution.
- Dedicated Rio adjustable dynamic door hinge.
- Utilising TOTAL70 profiles with the Rio Deep Bottom Rail.
- Bespoke Rio French Door spacer to achieve a customised finish.
- Fully weather tested and PAS24 security standard approved.
- Available in a number of colours including Anthracite Grey, Simply White and Slate Grey.

When developing our new offering, our engineers have also accounted for streamlining the installation process. The new Rio French door uses REHAU's Deep Bottom Rail system which complements the original window system meaning installers and fabricators don't need a new door sash. Rio hinges are also dynamically adjustable and outer frames can be specified in either TOTAL70C or TOTAL70S.
